JAWS Bits 'N' Bites

April 20-25, 2020

Updates from JAWS

If you are not receiving regular updates on Northern Lights Public Schools' response to COVID-19, please contact the school with updated email and texting information at 780 623 4271.

Chrome Books

If students or parents have a wireless internet connection at home and require a device to work on their continuing learning, contact that school to book a time to sign one out. You can also request to sign out books from our library if you are completing an online novel study and prefer a paper copy. If you are picking something up, call from hour vehicle or come to the front door and ring the doorbell and remain outside; a staff member will help you.

Supporting our Families in Need

Many families have been negatively impacted by the pandemic, and Northern Lights is responding with Food for Thought! Our staff know first hand that our learners are more successful with a healthy meal in their bellies. Staff are putting together food hampers and JAWS will be preparing and freezing meals; our transportation department will then deliver to families in need. Any family with Northern Lights students can contact the school directly and we will add you to our list for delivery, which will take place each Tuesday. Contact the school to add your family to our list! The hampers will typically contain some dry goods like pasta and sauce, some canned meats, vegetables, and fruit. Our first frozen meal going out will be lasagna. Call the school or please tell anyone you know who might have a family to who needs a little extra help during this crisis!

PMILIAMS

Important Dates

HIGH SC.

April 21 - the Food for Thought program begins!

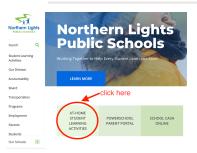

May 15 - Family Friday

May 18 - Victoria Day

June 5 - Family Friday

June 26 - Grad 2020 (POSTPONED)

Continuing Programming

Many students and parents are uncertain about what learning has been continuing, but rest assured, our teachers are moving all our courses forward. If you haven't been contacted, that might be due to out of date contact information. School staff have made efforts to individually contact every family. That said, call the school if you need assistance. If you do have a device and internet connection, go to nlpsab.ca and click on the Student Learning Resources. The welcome letter inside should have all the information you need to get started. If you're still having trouble, call the school! We are here to help. Email your teacher regularly with questions, completed work, or specific requests for feedback that will help make sure you're ready for the next course when the time comes! For a Frequently Asked Questions video, click here! As you work through our continuing learning plan, Alberta Education has plenty of resources to help you support your child from home!
